I bought my last car from a franchised car dealer in Norwich but have now discovered Stebbings Car Superstore after searching [used cars Norwich](#) today. I want to buy a BMW in Norwich as I really like the drive, design and performance of the BMW 1 Series. I am considering a 118D 3 Door as it has good fuel economy and service costs are quite reasonable with longer service intervals. I do love the 3 series saloon but I cannot afford one and are a little more difficult to park than the 1 series, the latter car having greater directional stability making parking this car easier especially if I get automatic transmission.
